

Paterson School Construction Program

Norman Brown
Program Director
Jacobs

Background

- **More than \$700 million for school construction in Paterson**
- **All Health and Safety work is substantially complete**
- **New construction program phase has commenced and includes some new schools, new additions and more renovations**

Ensuring Safety

The background image shows two men wearing white hard hats and safety glasses, looking down at a large set of blueprints they are holding together. They are on a construction site, with a complex network of metal scaffolding visible in the background. The lighting is bright, suggesting an outdoor or well-lit indoor environment.

Jacobs' primary concern is safety

Jacobs' commitment to safety includes the students, the contractors, and the community

Jacobs will oversee construction to ensure all safety requirements are met

Construction plans will be updated, as necessary, to ensure student safety
