Christie Administration Announces Ewing Township to Receive \$950K Through Schools Development Authority's Regular Operating District Grant Program

Furthering the Governor's commitment to providing the state's children with safe, modern and efficient schools, the Christie Administration today announced that the New Jersey Schools Development Authority (SDA) has executed eight state grants to the Ewing Township School District through the SDA's Regular Operating Districts (ROD) grant program.

The details for the district grants are as follows:

Projects:

Gilmore J. Fisher Middle School: Auditorium upgrades, including flooring, ceilings, seating and HVAC; partial flooring replacement and asbestos abatement.

Francis Lore Elementary School: Vinyl asbestos tile flooring replacement; parking and stormwater upgrades; Partial flooring replacement and asbestos abatement.

Ewing High School: Partial flooring replacement and asbestos abatement; removal and replacement of vinyl asbestos tile flooring and mastic.

William L. Antheil Elementary School: Vinyl asbestos tile flooring replacement; partial flooring replacement and asbestos abatement.

State share: \$950,168
Local share: \$1,425,252
Estimated total project costs: \$2,375,420

SDA Chief Executive Officer Marc Larkins, in cooperation with the Department of Education, announced the resumption of the grant program in May 2010. Since then, the SDA has executed 368 grants. The state-grant program funds at least 40 percent of eligible costs for projects in the RODs, addressing health and safety issues, student overcrowding and other critical needs.

The Department of Education selects school projects to receive grant funding from the SDA. The State has provided more than \$121 million in grants to local districts since the May 2010 announcement, leveraging projects estimated at a total of more than \$264 million. Funding for the program was made available through the sale of \$500 million in bonds by the New Jersey Economic Development Authority (EDA).
