SDA Chief Executive Officer Marc Larkins, Education Commissioner Bret Schundler Announce Grants for 142 School Facilities Projects

WEST WINDSOR – Regular Operating District (ROD) grant funding is ready to be released for 142 facilities projects at 111 schools in 59 school districts throughout the State, SDA Chief Executive Officer Marc Larkins and Education Commissioner Bret Schundler announced today at West Windsor-Plainsboro High School-South. Funding for the program was made available from the sale of \$500 million in bonds by the New Jersey Economic Development Authority (EDA), further advancing Governor Christie’s commitment to provide exemplary learning facilities for New Jersey students in a fiscally responsible manner.

Larkins said: “This is an important moment for the SDA and school districts throughout New Jersey. These grants signal another major step forward for the program, leveraging millions of dollars of construction in 18 of New Jersey’s 21 counties. They will allow districts to perform necessary improvements to the learning environments for our children and create much-needed jobs during this difficult economic period.”

“I am proud to join Marc Larkins and our colleagues at the Schools Development Authority in launching a renewed round of funding for school construction projects,” Schundler said. “State grants will help assure that our students will have safe learning environments. Many children will benefit from this necessary investment in schools across New Jersey.”

The State-funded grants represent at least 40 percent of eligible costs for projects in the RODs, addressing health-and-safety issues, student overcrowding and other critical needs.

West Windsor-Plainsboro High School-South will receive upgrades to corridor and vestibule ceilings and lighting. The State is providing a grant of \$190,224, representing its share of the overall estimated cost of \$475,560.

The announced grants represent a \$36.9 million State investment, leveraging \$77.5 million in total capital investment.

The Department of Education determines the selection of school projects receiving grant funds from the SDA. The Authority currently has a portfolio of 1,004 ongoing grant projects in the RODs, 50 projects in SDA districts in various developmental phases, 12 projects already under construction and 134 emergent projects addressing health-and-safety issues across the state.

Since its 2001 inception, New Jersey's school construction program has completed 621 projects in SDA Districts. In addition to building 54 new schools, the program has provided funding for 45 extensive additions, renovations and/or rehabilitations, and more than 500 other projects.

The program also has provided more than 3,000 grants to RODs, totaling more than \$2.3 billion. Including contributions from local school districts, these grants have leveraged projects estimated at \$7.4 billion overall.

A list of the initial 142 ROD grants to be executed is attached. The SDA will continue to work with school districts to execute additional grants.

###

**REGULAR OPERATING DISTRICT GRANTS
(Grants ready for execution as of May 2010)**

County	District	School	Total Project Cost Estimate	State Share	Local Share
