2019 Statewide Strategic Plan for SDA Districts

Section 2 Capital Project Portfolio Delivery Methods and Approach

Delivery Methods and Approach

- **Working Groups**
NJSDA, District and NJDOE together perform a holistic review of District facilities and collaborate to validate project need and most effective, efficient solution to address that need
- **Early Site Preparation (ESP)**
NJSDA investigates and addresses site environmental conditions prior to advancing building construction
- **Design Studio**
NJSDA staff develops bridging documents to ensure uniformity and consistency while providing for District-specific needs
- **Standardized Design Components and Material & Systems Standards**
Ensure that all projects conform to requirements for educational spaces, quality and consistency
- **Design-Build Project Delivery**
Streamlined project coordination and delivery
- **Constructability Review for Traditional Project Delivery**
Reduces occurrence of unforeseen issues, delays and cost impact

Results

- Advancement of Appropriate Projects and Scope to Address Educational Needs
- Projects Delivered On Budget
- Minimization of Surprise
- Reduction of Change Orders
- Job Creation

2019 Statewide Strategic Plan for SDA Districts

Section 3 Remaining SDA District Needs & Statewide Strategic Plan

The formulation of a statewide strategic plan is rooted in legislation

P.L.2007, c.137 (C.52:18A-235 et al. “(SDA) shall establish a Statewide strategic plan to be used in the sequencing of SDA district school facilities projects based upon the projects’ educational priority rankings and issues which impact the development authority’s ability to complete the projects including, but not limited to, the construction schedule and other appropriate factors.”

Statutory Principles:

- *Statewide educational priority ranking*
- *Statewide strategic plan*
- *Sequencing of projects*
- *Revision of plan at least once every five years*

Remaining Priority Needs

The NJDOE 2019 Educational Facilities Needs Assessment (2019 EFNA) Provides the Foundation for Development of the NJSDA Strategic Plan for Advancement of Projects in SDA-Districts

NJDOE's 2019 EFNA highlights the most severe facilities deficiencies impacting program delivery within each district:

- Capacity Needs (Overcrowding)
 - Address overcrowding at all Grade Levels, including Early Childhood
- Aging Infrastructure
 - Address concerning conditions at existing facilities

NJDOE's 2019 EFNA provides the educational prioritization of school facilities projects and recognizes that recommendations of educational prioritization will be jointly considered with the NJSDA's analysis of non-educational issues influencing project advancement, such as logistical and construction considerations, for the final prioritization and recommendations

Remaining Priority Needs Updated

During the months of November and December 2021 Working Group meetings were held with all 31 SDA-Districts in an effort to validate and update District needs identified in the 2019 EFNA.

Additionally, updated enrollment information has become available for the 2019, 2020 and 2021 school years.

This information has been analyzed by NJDOE and NJSDA and compared to existing student capacity information allowing for an update of the capacity needs that exist within the 31 SDA- Districts.

Approach

Development of a Strategic Plan to be used in the sequencing of projects in SDA-Districts based upon:

- Educational Priorities
 - Address Overcrowding
 - Building Age and Condition
- Logistical Factors
 - Availability of Land
 - Identification and acquisition of an appropriate school site
 - The most prominent logistical factor impacting the schedule of project advancement
 - A key factor in the sequencing of projects within the Strategic Plan
 - Delivery Capacity
 - SDA Staff
 - Consultant Community
 - Construction Community

Approach *(continued)*

2019 EFNA

- Establishes Universe of Needs for SDA-District Advancement

2022 – EFNA updated to reflect enrollment data for the 2019, 2020 and 2021 school years

- Refreshes Universe of Capacity Needs for SDA-District Advancement

NJSDA Logistical Factors

- Identify a First Tranche for advancement
- Identify activities necessary to further sequence needs within the First Tranche

Camden	Camden City	9 - 12	New School (Eastside HS Replacement)	941
Salem	Salem City	PK - 8	New School (Replacement)	961
2 Projects				1,902

* Project List updated to reflect planning discussions and SDA Board actions taking through February 2024.

These 2 Projects address high priority needs as reported in NJDOE’s 2019 EFNA and were identified for a First Tranche Advancement because there is ready availability of land under NJSDA and/or District control.

The 2019 EFNA notes that District and NJSDA input is needed.

District/NJDOE/NJSDA Working Group discussion are on-going to validate project needs and finalize appropriate solutions.

Additional Activities

Activities Necessary to Finalize the Sequencing of Projects Included in the First Tranche, Toward Addressing the Entirety of 2019 EFNA Updated with 2019-2021 enrollment data

- Potential Site Availability Review
 - Site Identification through acquisition, relocation of current residents/businesses, demolition and remediation is a prominent logistical factor in advancement of needed projects
 - The NJSDA has leveraged the majority of existing NJSDA owned sites to advance the current Capital Project Portfolio
 - Review Municipal-Owned and District-Owned Sites in Districts with EFNA-Identified Overcrowding
- Upon identification of appropriate school sites, the sequencing for advancement of projects in the NJSDA Strategic Plan can be updated to address the high priority capacity needs in the following districts:

County	District	County	District	County	District
Essex	City of Orange	Hudson	Hoboken	Cumberland	Vineland
Hudson	Union City	Camden	Gloucester City	Warren	Phillipsburg
Union	Plainfield	Monmouth	Long Branch	Essex	East Orange
