## **Christie Administration Announces Clark to Receive \$213,502 Through Schools Development Authority's Regular Operating District Grant Program**

Furthering the Governor's commitment to providing the state's children with safe, modern and efficient schools, the Christie Administration today announced that the New Jersey Schools Development Authority (SDA) has executed two state grants to the Clark Township School District through the SDA's Regular Operating District (ROD) grant program.

The details for the district grants are as follows:

### Projects:

Arthur L. Johnson High School: 1) Removal of vinyl acoustic tile (VCT) flooring and carpeting, provide new VCT and upgrade mechanical system. 2) Removal and replacement of existing auditorium seating, install acoustical panels in conjunction with separate asbestos abatement project.

State share: \$213,502

Local share: \$320,252

Estimated total project cost: \$533,754

SDA Chief Executive Officer Marc Larkins, in cooperation with the Department of Education, announced the resumption of the grant program in May 2010. Since then, the SDA has executed 467 grants. The state-grant program funds at least 40 percent of eligible costs for projects in the RODs, addressing health and safety issues, student overcrowding and other critical needs.

The Department of Education selects school projects to receive grant funding from the SDA. The State has provided nearly \$143 million in grants to local districts since the May 2010 announcement, leveraging projects estimated at a total of nearly \$315 million. Funding for the program was made available through the sale of \$500 million in bonds by the New Jersey Economic Development Authority (EDA).
